

Google Scholar Profiles

Google Scholar Profiles:

There are two ways that you will be able to identify if an author has a Google Scholar profile.

1. Search the name of the author in Google Scholar (last name, first name or initial), e.g. 'Smith, J.' If the author has a profile, a link to the profile will be displayed at the top of the page

User profiles for Smith, J

James E Smith - Verified email at mail.wvu.edu - Cited by 26132

Jonathan A Smith - Verified email at bbk.ac.uk - Cited by 12746

2. In the results list of any search, an author whose name is underlined has a Google Scholar profile. In the example below the authors JA Smith and L Van Langenhove have a profile, whereas R Harré does not
